Tips for Safe Transport of Hazardous Materials:

- Keep items in their original and labeled containers.
- Do not mix contents of unknown or unlabeled containers.
- Do not transport containers with open lids.
- Secure all containers so they cannot slide, tip or spill contents; away from passengers.
- 55 gallon drums must be removed from premises by producer.

Volunteers Appreciated

This collection is a service to the community and it takes many volunteers on the day of the event to ensure this program continues.

We are looking for dedicated participants! Volunteers are needed to collect surveys, direct traffic, sort batteries, and unload electronics. If you would like to be involved, please contact Oceana Conservation District.

Clean Sweep is made possible by a strong and unique state, federal, local, and industry partnership.

Thank you to Michigan Department of Agriculture's Clean Sweep Program, the Oceana Conservation District, the Household Hazardous Waste Committee, contributions from local county government including townships, villages, and cities within the county, and personal donations.
